

## UNLV Dial-up Connect/Disconnect for Windows 95, 98 & ME

UNLV Dial-up connect/disconnect instructions.

These instructions are compatible with the following Operating Systems:

- Windows 95
- Windows 98
- Windows ME

### **Connect:**

1. Double click on the **UNLV Dial-up** icon located on the Desktop.
2. Click on the **Connect** button. The modem should start to dial.
3. After it has completed dialing, a terminal window will appear.
4. Enter in your Rebelmail username and press the enter key on the keyboard.
  - You will not be able to use the mouse or the backspace key.
  - Usernames and passwords are CaSE seNsitive
5. Enter in your Rebelmail password and press the enter key on the keyboard.
6. After you have entered in your username and password and it has been authenticated with the server, some gibberish-like characters will appear.
7. Click on the **Continue (F7)** button.
8. Click on the **Close** button.

### **Disconnect:**

1. Double-click on the Network icon located in the system tray.
2. Click **Disconnect**.

---

### **Additional information / support:**
